

AGRIP RECOGNITION

TCRMF has again received the Association of Governmental Risk Pools (AGRiP) Recognition for completing the Advisory Standards for public entity risk pools. AGRiP is a national association for governmental risk pools, primarily focused on education. The AGRiP standards set forth the best practices in management and governance of risk pools like the Fund. Only approximately a quarter of AGRiP members (other risk pools nationally) have achieved the recognition.

The Fund submitted its application which was reviewed by members of an AGRiP committee that is responsible for reviewing all such submissions. As is typically the case, the reviewers had additional questions that were sent to the Fund for further clarification. The Fund's response to the questions was submitted just prior to the November 14, 2025, Board meeting. The Fund received notice in December 2025 that it had been awarded the recognition again. The Fund's recognition is effective December 1, 2025, for a period of three years. The Fund has consistently received recognition since the first application submitted almost 30 years ago. The Fund is most proud of the hard work and dedication necessary to maintain this recognition.
